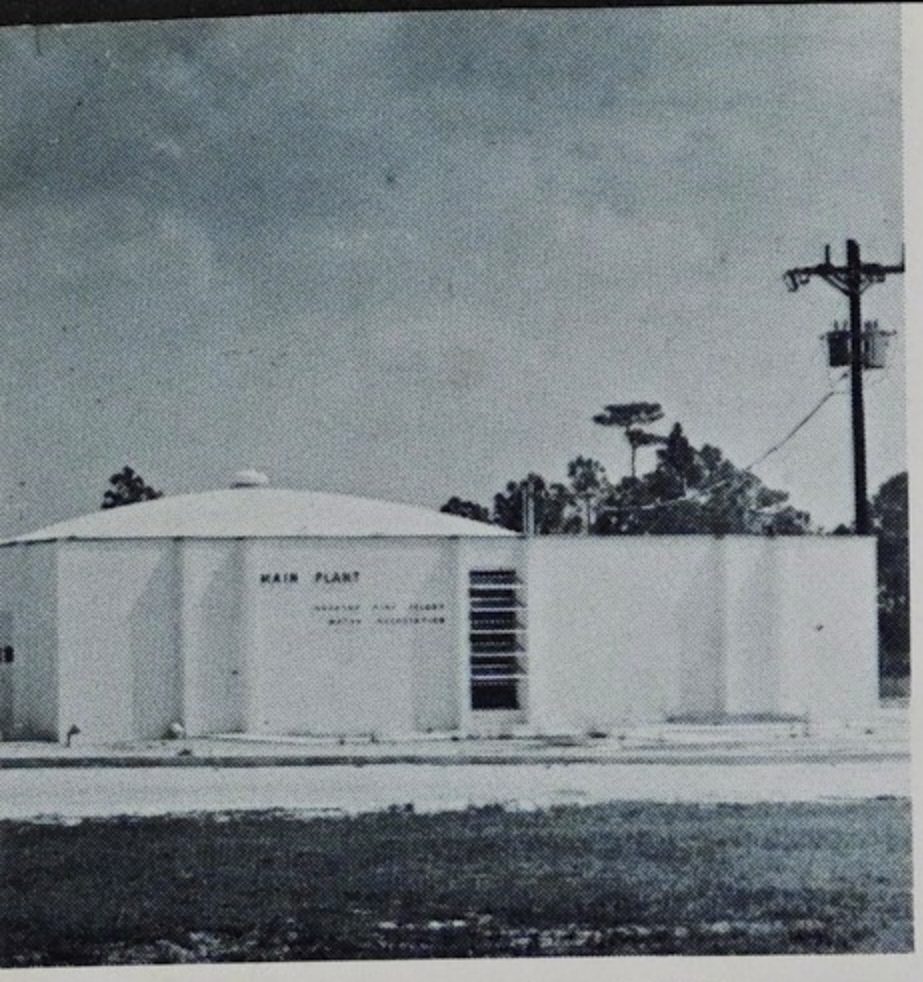
You'll note from the map at left that the protected waters of the Greater Pine Island area abound with many species of fish and represent outstanding boating opportunities with the Intra-Coastal Waterway going through Pine Island Sound. If some of the fish are strangers perhaps the key above will help you.

The finest Tarpon fishing in the world is at our front door. Charter boats available.



s state approved Million res plenty of good fresh here. The treatment plant Road where there is a nk and pumping station.

Another big one so common to the Pine Island Area.

THE ULTIMATE IN CLIMATE

Unquestionably, Florida's greatest magnet is its climate but Pine Island's climate is outstanding even in Florida. Almost daily sunshine . . . never a frost . . . and one of the lowest pollen count areas in the United States . . . these contribute to the unsurpassed climatic advantages of Pine Island. Ozone-pure Gulf breezes provide dependable natural air conditioning both winter and summer. Existence of such desirable climate makes life on Pine Island even more enjoyable because you can carry on most any activity most anytime of the year.

Climate is one of the main reasons for Pine Island's continued steady growth with recreational, educational, commercial and religious facilities. A half hour drive by car puts you in Ft. Myers, the trading center of five Southwest Florida Counties. The Edison Home, Pageant of Light, Cape Coral's Waltzing Waters and greyhound racing are but a few of the many nearby attractions.

Won't you come fishing with us?

SEND COUPON FOR DETAILS

The Greater Pine Island Chamber of Commerce provides you this general and brief look at its tropical paradise. More complete details on your special interests will be supplied promptly on receipt of the coupon at right from you.
